

Driving Districtwide Success

Accelerating systemwide growth by empowering district officials as instructional leaders

When superintendents and district leaders embrace their role as instructional leaders, they leverage systemic change across all schools. NIET has built on our successful, evidence-based practices for teachers and school leaders to create high-impact supports for districts. We help district leaders develop their priorities and take their district to the next level.

9 out of 10 districts outperformed their matched comparison districts in at least one state assessment

“As a system leader who has partnered with NIET for years, I have seen the impact when teacher leaders support instruction, lead professional learning, and work alongside teachers every day.”

— Dr. Saul Hinojosa, Superintendent, South San Antonio ISD, Texas

How We Work Alongside Districts

Drawing on more than 25 years of experience and research-based professional learning, we deliver practical solutions that empower educators and drive meaningful results. Below are some of the primary ways we help districts achieve lasting success:

- Training for teachers and school leaders
- Executive coaching and consulting
- Support for district-led initiatives
- Improvements in the effectiveness of instruction

Natchitoches Parish Rises in State Ranks

In 2026, Natchitoches Parish schools continued to show significant growth, earning recognition as a district on the rise. By employing NIET's TAP System model and placing Master and Mentor Teachers in every school along with instructional supports, the district rose from 43rd to a ranking of **16th in Louisiana** and has been recognized by the state as a **Top Growth district for two consecutive years**.

“Our students' success isn't an accident - it's the result of investing in teachers. Through NIET's support, we've built a system where every educator, from new teachers to veteran leaders, has access to ongoing coaching and collaboration. When teachers are strong, students thrive.”

— **Dr. Grant Eloi**, Superintendent,
Natchitoches Parish School Board, Louisiana

Investing in Excellence

In Beech Grove City Schools, Indiana, teacher effectiveness and retention have grown, leading to improvements in student performance.

94%

of teachers were rated **effective or higher** in the second grant year

99%

of effective teachers from the second grant year were **retained** into the third grant year

2X

Student growth on state assessments nearly **double** that of comparison groups from before the grant to the second year
