

EE PASS: Professional Learning Reimagined

| On-demand support for every educator

Teachers need reliable, high-quality support that they can access the moment they need it. NIET's Educator Effectiveness Preparation and Support System (EE PASS) is a professional learning platform that provides 24/7 access to resources including videos, learning modules, and documents to support collaboration. District and school leadership teams also leverage EE PASS to enter and analyze observation data in an easy-to-use system that ensures consistent, actionable feedback.

“EE PASS gives us a shared sense of what effective instruction entails, which makes it easier to support teachers consistently and strengthen our overall coaching approach.”

— Dominique O’Conner, Principal, Iberville Charter Academy, Louisiana

Access to High-quality Professional Learning

As part of NIET's comprehensive system of support for districts and schools, EE PASS extends professional learning, deepens instructional knowledge, and builds more consistent coaching across classrooms and schools.

With EE PASS You Can ...

1. See Effective Instruction.

Full lessons and targeted video clips make expectations clear and give teachers a concrete model to replicate

3. Strengthen Teacher Feedback.

Observation data can be entered and analyzed in a system that informs next steps for teachers

2. Deepen Instructional Impact.

Self-paced, research-backed learning modules build a shared understanding of effective instruction

4. Build Consistency in Evaluations.

Learning resources and credentialing for evaluators strengthen observation and feedback

Experience the Next Evolution in Professional Learning With EE PASS
