

Supporting Visionary State Leadership

Collaborating with state leaders to strengthen systems for teacher and student success

Prioritizing effective instruction starts at the top. NIET has worked with innovative state leaders across the country to advance their vision for increasing educator effectiveness, establishing observation and coaching systems that improve student outcomes, and implementing new initiatives. We offer a variety of services that range from targeted support to statewide training, and our educator rubrics are in use across multiple states.

Statewide Impact on Student Success in South Carolina

The study found that eighth grade students who experienced the TAP System were:

Cohodes, S., Eren, O., & Ozturk, O. D. (2026). The long run effects of a comprehensive teacher performance pay program on student outcomes. *Journal of Public Economics*, 253(105561), 1-19. <https://doi.org/10.1016/j.jpubeco.2025.105561>

How We Support State Leaders

NIET has 25 years of experience working at the state level with a focus on school improvement. Rooted in evidence-based professional learning, we provide what state leaders need:

- Teacher leadership and career pathways
- Mentor and new teacher support
- Standardized rubrics
- Statewide trainings for educators, and state and regional staff
- State initiative consulting

"Louisiana's partnership with NIET has been a win for teachers and students. I've seen the power of NIET's work firsthand, and their collaboration and support provides opportunities for educators and students to thrive."

— Dr. Cade Brumley, *Louisiana State Superintendent of Education, Louisiana*

"We partner with NIET to help us lead and calibrate this work because we know we have to invest in those teachers in front of our students each and every day."

— Jacob Oliva, *Secretary, Arkansas Department of Education, Arkansas*
