

**EMPOWERING LEADERS
TO DRIVE
INSTRUCTIONAL
EXCELLENCE**

Advancing District and School Leadership

Leaders are the key to sustained success. NIET works alongside district and school administrators to help them coach and support effective instruction through three main services: **Building District Instructional Leadership**, the **Principal Standards Rubric**, and **Principal Leadership Training**.

Building District Instructional Leadership

We help you identify high-impact action steps to systemically improve instruction. Our support is grounded in the **NIET District Instructional Framework** and follows three main steps:

- **Contextual analysis**
- **Onsite support**
 - Root cause analysis
 - Action planning
- **Continuing guidance**

WE BELIEVE EFFECTIVE LEADERS MUST

1. Establish, communicate, and activate a compelling **vision of excellence**
2. Prioritize and create **instructional coherence** across standards, curriculum, classroom practice, assessment, and evaluation and feedback
3. Develop a culture of **high expectations** and **equitable opportunities**
4. **Build the capacity** of others through a system of continuous learning, collaboration, data analysis, and coaching.
5. Model **integrity** and build **trust**
