

PRINCIPAL STANDARDS RUBRIC

A TOOL FOR LEADERSHIP COACHING, SUPPORT, AND EVALUATION

To support principals' growth and skill development, NIET has outlined a set of research-based indicators that define excellence in school leadership. This Principal Standards Rubric helps principals to develop an in-depth understanding of expectations that maximize their role as instructional leaders.

THE NIET PRINCIPAL STANDARDS RUBRIC IS GROUNDED IN SIX DOMAINS THAT DEFINE HIGH-QUALITY, EFFECTIVE SCHOOL LEADERSHIP:

- School mission, vision, and strategic goal setting
- Instructional leadership
- Capacity building
- School environment/community and campus climate
- Ethics and integrity
- School operations/management

NIET Principal Standards Rubric Training | Virtual Delivery Available

The two-day training is designed to develop both an understanding of the **rubric as a tool to support principals' growth** as well as an understanding of the **evaluation and observation process**.

Evaluators attend both days while principals are only expected to attend the first half of day one. Principals also have the option of attending the full two-day session. At the conclusion of the training, evaluators complete an online principal evaluator certification.
